

# SINKING THE SHIP OF STATE ONE, TWO, THREE DR. ADRIAN KRIEG'S TRILOGY OF TOMORROW.. AND HOW TO SOLVE THE PROBLEMS THAT CONFRONT US.

### Turning The Tide

America's legislative power in 2016 is almost totally in the hands of the progressive movement. All 11 elected Jewish Senators are Democrats, and all are members of the progressive caucus. All 20 House Jewish members are Democrats and all are members of the progressive caucus. Progressives are socialists; people who dispute that are delusional. Both Democrat candidates to the 2016 presidential elections are socialists. Bernie Sanders [S-VT] is the

socialist senator from Vermont who caucuses with the Democrats and clearly states he is a Democratic Socialist. Hillary Clinton, who is easily a mile to the left of her husband, Bill, claims to be a Progressive Democrat. Both candidates, when asked to explain the difference between Democratic socialism and Progressive Democrat declined to respond.

### Practical Economics For Millennials

Dr. Adrian Krieg, CMFGE, is a manufacturing engineer certified by the Society of Manufacturing Engineers (SME). His doctorate is a Cultural Doctorate in Manufacturing Science. He has produced 20 U.S. patents including three in nuclear technology and also authored 16 books.

### Liberalism: The Bane of Civilization

This book details the failures of the progressive movement. It is the perfect companion for anyone about to debate a socialist. It is an outline of why a Bernie Sanders or Hillary Clinton Administration would result in what I titled my 2000 published book, July 4th, 2016, the last Independence Day.
